Bait Form

Please Make sure you order your bait before you travel

All the baits we supply are 18mm-20mm in size and are fresh frozen to maximise your chances of landing some of the Cretelakes whackers. These baits are fed into the lakes throughout the summer and winter months so the fish treat these as a natural food source and they are packed with the essential ingredients the fish need to maintain a healthy diet that is essential to the carps well-being.

We highly recommend that you use one of the baits listed below and be safe in the knowledge that they are tried and tested with the added advantage that they come straight out of the freezer as you need them.

Simply phone the office on 0800 048 9929 to pay by Debit/Credit card and your bait will be waiting for you upon your arrival.

Cretelakes does not permit particles or pellets of any kind; we have a strict boilie only rule.

Please contact Debbie on 0800 048 9929
